

Healthy Kids Running Series Spring 2022
In-Person Race Day Guidelines for Participants/Spectators
Published: January 28th, 2022

Healthy Kids Running Series holds the health and wellness of our HKRS family, our coordinators, participants and spectators as our highest priority.

HKRS will be following the CDC guidelines that have been set forth at the time of each event nationally. We are excited to offer safe, in-person racing again this spring!

Those experiencing COVID-19 symptoms are not permitted on-site. The CDC's list of symptoms is [here](#). Community Coordinators retain the right to ask anyone displaying symptoms to leave for the safety of all attendees.

- We encourage pre-race registration online to decrease on-site race registration lines.
- We recommend parents bring a filled water bottle for their runner.
- Stay connected with us by opting into the RunSignup text alert service while registering, allowing our Coordinators to communicate announcements with you directly.

Most importantly be safe, bring a smile, cheer our runners and encourage a #GetUpandGo attitude! We look forward to hosting you this spring!

Healthy Wishes,
The HKRS Team
